HEATING

CG92

High-Efficiency Gas Furnace

Energy Efficiency

- Up to 92% AFUE
Annual Fuel Utilization Efficiency (AFUE) represents how efficiently a furnace converts fuel to energy. The higher the AFUE percentage, the more energy-efficient the furnace.
- ENERGY STAR® qualified

Capacity

- 45,000 – 125,000 Btuh heating size range

Home Comfort

- Multi-speed blower motor takes your comfort to the next level

Reliable Performance

- Corrosion-resistant cabinet made with strong, heavy-gauge pre-painted steel is built to last
- Tested for proper operation at the factory to ensure faultless performance

Indoor Air Quality

- Designed with built-in electronic air cleaner and humidifier connections for easy integration of accessories to improve your home's indoor air quality

Warranty

- 20-year limited warranty on aluminized steel heat exchanger; 5-year limited warranty on parts. See warranty certificate for details on a 10-year extended parts warranty.

Raise your comfort level, while enjoying lower utility bills

The CG92 gas furnace has an energy efficiency rating of 92% AFUE, which means it can save you hundreds of dollars each year on your utility bills, compared to older, less-efficient furnaces. A multi-speed blower motor allows the airflow to be set to meet your specific home comfort needs.

Take even more comfort in long-lasting performance

When temperatures drop outside, you want a furnace that you know will provide consistent, reliable warmth. The CG92 delivers, with robust components that are built to last. The aluminized-steel heat exchanger—the part of the furnace that moves the heat produced by the furnace into your home—allows maximum heat output with minimum resistance to airflow with a unique weld-free crimp design. The dependable hot-surface ignition, supported by self-diagnostic controls, provides dependable, efficient heat when you need it most.

Overall Dimensions
