## Helps reduce installation and service costs

- External brass service/shut-off valve saves refrigerant charge for safer operation
- Easy-access electrical panels, pre-wired for easy hook-up
- Hinged control panels for simple access to internal components
- Service valve gauge ports positioned for access room for low-loss fittings
- Recharged for 15 ft. of interconnecting tubing

## Designed for years of trouble-free service

- Durable Copeland compressor with internal pressure-relief valves and inherent thermal protection
- Liquid line-filter drier prevents moisture and compressor damage
- High-quality condenser coil uses copper tube with enhanced louvered fin for greater heat transfer
- Permanently lubricated condenser fan motor needs no annual maintenance
- Accumulator is standard on all models
- ETL/ETLC approved
- ARI listed/certified

## 10 SEER Air Conditioners

When it comes to keeping your customers cool and comfortable, the AireFlo™ 10 air conditioners deliver on all counts – quality, efficiency, reliability and performance. With 10 SEER efficiency rating, they offer long-term value while keeping utility bills low. And with field-tested features like a Copeland® compressor and a liquid line-filter drier, the AireFlo 10 helps keep noise to a minimum while performing year after year.
